STATE OF IOWA Computation of Iowa Motor Fuel Tax Credit

1996

Taxable Year Ended _____, 19____.

Attach this form to your Iowa income tax return
See reverse side for instructions

NAME (as shown on page 1 of your income tax return)

S.S. No. or Federal T.I.N.

FUEL USED FOR: (Please check the appropriate box)

☒ 1.) Farming ☐ 2.) Commercial ☐ 3.) Commercial Fishing ☐ 4.) Other (specify) _____

Fuel Type	Gasoline A	Gasohol B	Undyed Diesel Fuel C	Special Fuel (LPG) D
Iowa Fuel Tax Rate	20¢	19¢	22.5¢	20¢
Credit Computation				
1. Number of gallons from original invoices				
2. Gallons used on highway				
3. Gallons claimed Subtract line 2 from line 1	▲	▲	▲	
4. Credit Multiply line 3 by the rate shown above	\$	\$	\$	\$
5. Sales Tax Nonfarm use only (see instructions on reverse side)	▲	▲	▲	
6. Net Amount of Credit Subtract line 5 from line 4	\$	\$	\$	\$
7. Total Credit Add line 6, columns A through D				\$

THE FOLLOWING REQUIREMENTS MUST BE MET FOR THIS CLAIM TO BE HONORED

- You made no claims for a fuel tax refund on fuel purchased during this tax year.
- You do not have an active motor fuel tax refund permit for this year.
- All information requested on this form must be accurately entered.
- You must have and maintain records verifying nonhighway gallons purchased.
- All gallons claimed for credit were paid for in the tax period.
- The gallons claimed were or will be consumed in other than a registered vehicle.
- Gasoline used in a boat does not qualify for credit unless the boat was used for commercial fishing.
- Sales tax (nonfarm usage) must be computed correctly. See the reverse side for instructions.
- Invoices showing gallons must be issued in the name of the individual, estate, trust, or corporation claiming the credit. See reverse side for instructions for partners or S corporation shareholders.
- A copy of the Federal 4136 must also be attached to your Iowa Income Tax Return.

INSTRUCTIONS FOR COMPLETING FORM IA 4136

WHO MAY CLAIM CREDIT:

Resident and nonresident individuals, fiduciaries of estates and trusts, and corporations other than S corporations, may claim a tax credit on their income tax returns for fuel on which Iowa tax was paid and used off-highway in an unlicensed vehicle.

The income tax credit may be claimed by partners of a partnership or shareholders of an S corporation. If a partner or shareholder is claiming income tax credit for fuel purchased by a partnership or S corporation, a supplementary schedule must be attached to the individual return (in addition to Form IA 4136) showing the name of the partnership or S corporation, the Federal Taxpayer Identification Number (T.I.N.) of that entity, the total amount of gallons purchased, the method of distribution, and the number of gallons to be claimed by each individual partner or shareholder.

NAME:

Enter the name of the person or business claiming the credit as shown on the front of your income tax return.

S.S. No. OR FEDERAL T.I.N.:

Enter Social Security number or Federal Taxpayer Identification Number (for businesses) in this space. Do not enter your cancelled motor fuel tax refund permit number.

FUEL USED:

Mark the proper box(es) to indicate how the fuel was used. Review your invoices to verify that Iowa tax was paid before claiming a credit. This area must be completed. Note: Dyed Diesel Fuel is usually sold Iowa tax free. No refund may be claimed for Dyed Diesel Fuel.

CREDIT COMPUTATION

Please be sure to calculate credit in all applicable column(s), A through D.

Line 1: Enter in the proper column(s) the total number of gallons of fuel from your paid fuel invoices, on which Iowa fuel tax was paid and were placed in your fuel storage tanks during the tax year. Invoices must be kept for three years after your return is filed as proof of your claim.

Line 2: Enter in the proper column(s) the number of gallons, which were used on the highway, and were included on line 1.

Line 3: Subtract line 2 from line 1 and enter on line 3. This is the gallonage to be claimed for credit.

Line 4: Multiply the amount(s) on line 3 by the fuel tax rate(s) listed below and enter in the proper column(s) on line 4.

Fuel type	Fuel tax rate
Gasoline	20¢ per gallon
Gasohol	19¢ per gallon
Undyed Diesel Fuel	22.5¢ per gallon
Special Fuel (LPG)	20¢ per gallon

Line 5: Sales tax is applicable on all fuel claimed for credit except that used in farming and processing. To compute the sales tax, calculate the average cost per gallon of the fuel purchased minus the per gallon state fuel tax and multiply by the number of gallons claimed for credit on line 3. Multiply this average cost by the 5% sales tax rate. Enter sales tax in the proper column(s) on line 5. Do not include local option sales tax in this computation.

Line 6: Subtract line 5 from line 4 and enter in the proper column(s).

Line 7: Add line 6 columns A through D and enter on line 7. This is your Motor Fuel tax credit. Enter this amount on the Motor Fuel tax credit line of your Iowa Income Tax Return.
